

Activity:

Jigsaw map and control map

Type:

Individual

Age:

4 ½ years onwards

Material:

Jigsaw map and control map

Presentation:

- Bring both the maps and put them on a vinyl mat on the floor.
- Invite the child to do this activity.
- Lay the control map below the jigsaw map.
- Teacher can tell the child that they are going to match the jigsaw piece to the control map.
- Teacher takes and matches about two pieces of the puzzle to the control map.
- She then invites the child to do the exercise.
- When the child has matched all the puzzle pieces to the control map, the teacher will now show the child how to put the puzzle back.
- She will put about 2 of the puzzle pieces on the frame and then invite the child to complete the rest.

Control of error:

Control map

Aims:

To give a sensorial impression of the relative sizes and shapes of the continent
