New Delhi [India], April 1: GD Goenka Group, one of India's leading education groups, has partnered with Delhi Capitals as their Official Knowledge Partner for the Indian T20 League 2026 season, bringing together two institutions shaped by a shared belief in ambition, resilience, teamwork, and growth.

At the heart of the partnership is a natural alignment of values. GD Goenka's THRIVE philosophy stands for being Team-centric, Harmonious, Resilient, Innovative, Versatile, and Empathetic, while Delhi Capitals are guided by Courage, Excellence, Teamwork, Care, and Ownership. Together, these values speak the same language: backing one another, pushing boundaries, taking responsibility, and continuing to grow stronger through every challenge.

There is a powerful symbolism in the coming together of the two institutions. The peregrine falcon that forms the heart of the GD Goenka emblem represents vision, agility, and the ability to rise higher with focus and purpose. The tiger at the centre of the Delhi Capitals crest reflects courage, hunger, and an attacking spirit. One soars, the other roars--but both stand for strength, confidence, and the instinct to keep moving forward.

The association also reflects GD Goenka's longstanding commitment to sport as an essential part of education and character-building. Across its institutions, the Group has consistently invested in some of the country's finest sporting infrastructure, including international-standard cricket grounds, professional football pitches, half Olympic-sized swimming pools, shooting ranges, tennis, padel and pickleball courts, indoor sports arenas, and dedicated training facilities designed to help students compete, perform, and grow.

Commenting on the partnership, Mr. Nipun Goenka, Managing Director, GD Goenka Group, said:

"Cricket and education have more in common than people often realise. Both ask you to prepare, to stay resilient when things do not go your way, to trust your team, and to keep showing up with belief. Delhi Capitals and GD Goenka are built on very similar philosophies, which is why this partnership feels so natural.
